📍 Port harcourt, Nigeria

Full-Stack Web Developer with hands-on experience building responsive, user-friendly, and production-ready web applications. Passionate about writing clean, efficient code with a strong focus on user experience, performance, and product quality. Skilled in leveraging AI-assisted design and prompt engineering to accelerate development and innovation.

EDUCATION

○ BSc in Geography and Environmental Management

University of Port Harcourt
12 / 2019 - 10 / 2024 | 4.06 / 5.0

○ Frontend development

Codecademy
05 / 2022

○ Fullstack development

Smarthub
08 / 2023 - 12 / 2023

WORK EXPERIENCE

○ Fullstack developer

Freelance
05 / 2022 - 2026

Achievements/Tasks

- Developed and deployed responsive full-stack web applications using JavaScript, React (Vite), Node.js, and MongoDB.
- Designed and developed NJLSwift, a multi-app platform with Admin and Driver dashboards; implemented JWT authentication, role-based login, CORS management, SPA routing fixes, and real-time updates with Socket.IO. Deployed frontend on Vercel and backend on Render.
- Designed and deployed a full-stack eCommerce store leveraging AI-assisted development, featuring product catalog, search & filtering, shopping cart, and secure checkout; implemented using TypeScript and Next.js for server-side rendering and responsive design. Deployed on Vercel with CI/CD pipelines for instant updates.
- Collaborated on a real-time weather application, integrating live API data, dynamic UI updates, and fully responsive layouts, focused on frontend development and user experience.
- Created a lightweight note-taking app with autosave, local storage, light/dark mode and full responsiveness. Deployed on Vercel, enabling instant builds and scalability.
- Designed a static frontend for a luxury hotel brand, highlighting services, booking interface, and visual aesthetics with clean UI layouts.
- Developed a multipage blog-style website with navigation and content sections. Focused on layout styling and structured content organisation.
- Collaborated closely with other developers to create pixel perfect designs and improve user experience
- Built and maintained RESTful APIs using Node.js and MongoDB, enabling seamless integration with third-party services.
- Founded a Tech community of over a thousand people from across Africa

SKILLS

JavaScript HTML5 CSS React
Redux Vite Material UI GIS Analysis
MongoDB Node.js Express
API Integration Render CI/CD
Git & Github Socket.IO CORS Excel
Time management Problem-solving
Adaptability Technical Content Creation
AI-assisted design / Prompt Engineering
